About SuNTOkEN (SNTK)

SuNTOkEN (SNTK) is a unique token based on the first/last day of the week "Sunday" token. SNTK Token purpose is based on finances and assets holdings. It uses the decentralized protocols to facilitate access to smart financial services and payments. This in turn gives power to organizations and individuals to be able to use SNTK Token as they see fit. With the goal of increasing capital efficiently. SNTK Token is an Equity Token which relies on smart contracts: It is an array of codes that facilitate trades or payments between users. SNTK Token is transparent. SNTK Token is minable, tradable and can also be burned.

Quick Facts

- There is a total 999,999,999 SNTK Token with 0.9 SNTK Token in circulation. 499,999,999.5 SNTK Token would be available for investors to purchase during ICO. SNTK Token is swappable on small exchanges, similar to Pancake Swap and those like it.

- Purposes and goals for SNTK Token: making it **Payment token**, a **Utility token**, an **Equity token** and finally **Metaverse art token**.

- Notable difference between tokens and coins is what they represent. While crypto coins are essentially digital versions of money, tokens can stand for assets or deeds. Tokens are able to be bought with coins, but various tokens do carry more value than coins.

- What are **Payment Tokens?** Payment tokens have no other purpose than to pay for goods and services.

- What are **Utility Tokens?** Utility tokens are also referred to as "application tokens," their use is to provide people with access to either a product or service. They are also rare because most tokens are expected to gain in value based on their limited supply.

- What are **Metaverse Tokens?** Metaverse tokens are a unit of virtual currencies used to make digital transactions within the Metaverse. Since Metaverse are built on the blockchains, transactions on underlying networks are near-instant. Blockchains are designed to ensure trust and security, making the Metaverse the perfect environment for an economy free of corruption and financial fraud. Holders of Metaverse tokens can access multiple services and applications inside the virtual space. Some tokens give special in-game abilities. Other tokens represent unique items, like clothing for virtual avatars or membership for a community.

- What are **Equity Tokens?** If a token represents some stock or equity in the company that issues it, it's an equity token. However, few companies have attempted such an ICO, because there isn't much regulatory guidance about what is legal and what is not.

SuNTOkEN (SNTK) ICO

- SNTK Token total supply is 999,999,999 does have the ability to increase, but it is not expected to at the moment. If the product were to increase, then it would adapt to SuNTOkEN (ENO) at 1,000,000,000,000 supply.
SNTK Token runs on the BEP-20 which is a token standard on Binance Smart Chain that extends ERC-20.

- **ICO** will start on the March 25th at 8am until the April 25th, for the first stage. Investors can purchase SNTK Token tokens in 3 different stages. It's dependent on a first come, first served basis. We are going to issue 245,509,591.25. SNTK Token for the first stage of the ICO until all tokens are sold. Prices will increase with every stage after the first stage. Investors will receive their tokens within 5 working days after the ICO finishes. Second stage 245,509,591.25 SNTK Token and the final stage 199,999,999 SNTK Token going to angel investors.

Allocation % Amount (SNTK Token)
- **ICO Participant:** 50% 491,019,182.5 + 0.9 in circulation
- **Founding Team:** 30% 300,000,000.5
- **Angel investors:** 20% 199,999,999

- **Funds Usage**
45% of the funds will be used to build a full-fledged SuNTOkEN (SNTK) platform. And all the securities it's going to need. And perform upgrades to the system. We already have a website (suntokensntk.com) and hope to upgrade to a more efficient crypto exchange site. And, which includes team recruiting, training, and the development budget.

- **50%** will be used for Binance branding and marketing, including continuous promotion and education of Binance and blockchains innovations in industry mediums. This is a sufficient budget for various advertisement activities, to help Binance become popular among investors, and to attract active users to the platform.

- **15%** will be kept in reserve to cope with any emergency or unexpected situation that might come up.

Founder & Team

- **Founder:** P. Lebari Sunday

- Lebari is from San Diego California, after graduating high school he went to Humboldt State University (now called Cal Poly Humboldt) in Northern California. Lebari has always has a strong interest in the information technology industry, learning how to code, fix, and build computers in his free time, while attending university.
- After graduating university with a B.A. Sociology, Lebari worked for the Humboldt Counties Department of Social Services, but left work every day feeling unfulfilled and lacking passion for his work. He began coding websites and other miscellaneous projects in his free time. Eventually, he was drawn into the world of cryptocurrency and the strong future they will hold in the economy. He felt passion return and threw himself into creating his own cryptocurrency. This led to the creation of SuNTOkEN.
- SuNTOkEN is a token that would be used to make payments in regards to utilities services. An alternative mean to pay for your utility bills instead of your usual debit or credit cards tied to bank accounts. A Payment method that pays all your utilities for the year without having to worry about making monthly payments. Its relives you from having to consistently check your bank accounts or keep track of your balances.
